

Behaving responsibly

At our core, we are dedicated to reducing our environmental impact and preserving our planet for future generations.

We have worked with the Carbon Trust to build a carbon calculator that generates cradle-to-gate carbon footprints for our kitchen products. The goal is to increase transparency for our customers, allowing them to get a view of the carbon footprints of the products they are purchasing.

The industry leading carbon calculator allows us to understand the carbon footprint of all the components used to build your kitchen. It is also used to drive sustainable product development, in order that we continue our journey towards decarbonising our product offer.

Our commitment to decarbonisation drives our business model.

- Our efficient biomass boiler burns waste material to heat factories and warehouses.
- We send 0% to landfill. We actively recycle materials such as vinyl, plastic, paper, printer cartridges, and even heavy goods vehicle tyres, reducing waste and promoting a circular economy
- Solar panels supply 40% of power, with the remaining power from green electricity.
- All of our vehicles driven by the sales teams are electric/ hybrid.
- To promote responsible sourcing, we encourage our suppliers to ensure our raw materials come from sustainable and responsibly managed sources.

- Concealed wall hanging brackets for good looks
- Blum 110° 3 way adjustable hinges
- Blum soft close door as standard
- Blum tandem drawer with soft close
- Replacement co-ordinated ends to match unicolour, woodgrains and gloss

Blum Products & Eco Kitchens

There are very few moving components within a Kitchen, therefore it makes perfect sense to include the very best fittings to ensure your kitchen operates as well in twenty years time, as it does the day it is installed.

This is why our kitchens offer Blum fittings as standard.

Blum are widely regarded as manufacturing the best, most innovative kitchen fittings within the industry. Founded in 1952 in Austria, Blum has grown into a €2.4 billion business trading in more than 120 countries around the world.

Blum fittings are not only meticulously engineered to perfection, they are aesthetically designed to harmonise with our furniture.

Why we use Blum...

We use Blum hinges, drawer boxes and lifting mechanisms quite simply, because they are, in our opinion, the very best money can buy and harmonise perfectly within our kitchens.

Blum are masters of engineering, to such an extent that their products are ultrareliable,

hence the lifetime warranty they place upon their fittings.

What more can you demand from a product?

www.blum.com

“Reliability, Strength, Longevity & Sleek Design”

Blum has it all!

Blum Lifetime Guarantee

Such is Blum's confidence with their manufacturing excellence, in the unlikely event of any defect occurring within a Blum fitting, they will replace it free of charge, regardless of its age.

Tempo

Heavily structured to give a realistic touch and contemporary feel. The Tempo range of doors can are stylish both as a stand alone option or when mixed with slab coloured doors. The only limitation is imagination.

Colours

TEMPO COLOURS

TEMPO NATURAL

Tempo Charcoal

Tempo Vincenza Oak

Warm grey tones and tactile woodgrain finish ensures Vincenza Oak is a firm favourite.

Tempo Halifax Oak with Stone Grey

Heavily structured to give a realistic touch and

contemporary feel, the Tempo range of doors have been co-ordinated with the subtle Stone Grey

uni-colour and are presented in highly fashionable mixed palette format, appealing to a broad spectrum and enabling the creation of stunning and personalised kitchens for all tastes.
